

## **Captains Bulletin**

I would first like to reiterate to all members the need to take this Covid pandemic very seriously.

The Management and Staff are working tirelessly to keep the club clean and safe for your enjoyment. So please be guided by their advice when visiting the club.

Notices have been produced and displayed around the club for your safety, so please be so kind as to read and adhere to them.

In addition to Government guidelines, we have had to put other rules in place to try and protect all members and keep them as safe as we possibly can. Two of the most important rules are:- While on the club premises keep at least two meters apart, this should include no shaking of hands, hugging or kissing when meeting or congratulating other members and wear your face mask at all times when moving around inside the club, this includes the changing rooms and the shop.

Any member found to be disregarding any of the rules, I am reluctant to say, could face a lengthy ban or expulsion. So please let us all be responsible and enjoy our facility without fear of being closed down.

Having said all that, I wish you and your guests, many playing and social hours of enjoyment at the club.

*Roy Walker*  
Club Captain
